

Interior Checklist

- Carpets professionally cleaned
- Touch up any chipped plaster, holes in the wall and/or paint
- Repair any cracks in walls or ceilings
- Ensure all doors and cupboards close properly
- Repair leaky taps, pipes or toilets
- Ensure seal around tubs and basins are in good repair
- Check all light bulbs – are they working properly, is the wattage adequate? Replace any burnt out bulbs – consider full spectrum or daylight
- Replace any broken light switches or switch plates
- Clean fingerprints off all light switches or switch plates
- Pack up the little things. Little things create clutter. They will need to be packed up and moved out eventually, so pack now
- Clean the inside and tops of closets and cupboards (buyers will open them up to check out the storage space)
- Clean all major kitchen appliances (stove, oven, fridge, microwave) in and out
- Clean the kitchen and each bathroom so they are spotless and sparkle
- Clean every mirror in the house
- Pack valuables, such as art objects, vases, figurines or personal collections so they are out of reach, out of sight and locked away
- Wash windows inside and out throughout the house
- Make sure all windows operate properly. If the seal is broken on a window, repair or replace now.
